

Week 8

Monday: Class with the Beginner Group at the Steinterrasse

Wednesday: Alpine Tour: First destination: the [waterfalls](#) at Krimml (the highest in Europe)

Next Destination: The [Grossglockner Hochalpenstrasse](#) (a road that leads up near the peak of the [Grossglockner](#), Austria's highest mountain 3,798 meters (12,461 feet))

Can you spot the mamrot (Murmeltier) in these pictures?

The Grossglockner was a little shy for this picture, but is hiding behind the clouds just to the left of the two peaks.

Although this may look like a posed picture, ready-made for an advertisement, it is completely candid and unrehearsed. Here, Kevin, JJ, and Irina learn some interesting vocabulary words.

Going down: a view of the serpentine Hochalpenstrasse
