

Week 10

Our annual awarding of Georg and Konstanze prizes

Leider am Mittwoch

Weekly tour: the Gaisberg mountain - the clouds and rain let up for a few hours today so that we could go to the top

Farewell Party

Our annual tradition: a before and after shot. As always, we see longer hair and broader, more confident smiles. This was our first year in the new Uni-Park building and our last year on the quarter system. You've made great progress during this program, saw and experienced lots of Europe, saw and read some great books, a film, and a play, and, I hope, had a great time along the way. Thanks for being a stress-free, easygoing group. I look forward to seeing you in another German class soon!
