A visit to a Heuriger and to the Parliament
Farewell Party
In all my years of directing this program, the before and after pictures you see here show the same big smiles at the start and end of the program. That pretty much explains how much fun this program was for the whole semester! I think this group had a great experience and I know for certain that they excelled in their work. Thanks for being such an enthusiastic and friendly bunch – it made my work so rewarding and fun! Special thanks go to our outstanding TA, Francesca, and to our incoming exchange student, Nathalie, for their leadership and fun classes. Thanks to Nathalie as well for picking out a great group of conversation partners – and I would especially like to thank Marritt, Ines, and Bella for helping my students have a richer experience. I look forward to seeing you again in another German class!
